

AGME SRA-23 UC ORBITAL SERVO RIVETING MACHINE

- ✓ **Versatile servo riveting head with maximum capacity**
- ✓ Prepared to be installed in larger machines
- ✓ Improvement of the special machine **flexibility and production capacity**
- ✓ Perfect solution **for hardened or large diameter rivets**
- ✓ **Wide application range:** from 6 to 23 mm riveted head diameter
- ✓ Total electric drive
- ✓ Manufactured with **AGME technology**
- ✓ **Guaranteed Quality and Reliability**

AGME SRA-23 UC ORBITAL SERVO RIVETING MACHINE

Riveting capacity in 400 N/mm ² steel (maximum diameter to obtain)	6 - 23 mm
Electronic stroke adjustment	5 - 100 mm
Adjustable riveting force	5-50 KN
Maximum approaching speed	240 mm/sec
Maximum riveting speed	35 mm/sec
Motor power	1,5 Kw
Automatic greasing system	✓

Electronic components

Servo and regulator	Bosch-Rexroth
Installed power	17 KVA
Voltage	3 x 400VAC 50Hz
